

INHUMAN LIBERTY

romantic times
 odd city walls
 nowhere to go
 nowhere to go
 just a moment of silence
 just a moment with you
 would bring us hours
 with no one else here
 would bring us hours
 in a new atmosphere

all my mind will rotten away
 in some strange connection of love and hate
 all my mind will rotten away
 in some strange connection of love and hate

some secret minds
 and identities
 won't die and rotten away
 her face in the moonlight
 her eyes in the twilight
 will pass us through a higher level
 where we can be and stay forever
 inhuman liberty
 inhuman liberty

all my mind will rotten away
 in some strange connection of love and hate
 all my mind will rotten away
 in some strange connection of love and hate

love and hate
 love and hate
 love and hate
 love and hate

all my mind will rotten away
 in some strange connection of love and hate
 all my mind will rotten away
 in some strange connection of love and hate...

NASTASSIA

saw you standing naked in the hall
 i want your body and i want a hole lot more
 fadings were never for you
 and love was dying with the truth

the empire must fall apart
 and open up the door
 for a new world and a better place
 where love will be no hard

saw you standing naked in the hall
 i want your body and i want a hole lot more
 feelings were never for you
 and the system was nothing but cruel

the empire must fall apart
 and open up the door
 for a new world and a better place
 where love will be no hard

the empire must fall apart
 and open up the door
 for a new world and a better place
 where love will be no hard

saw you standing naked in the hall
 i want your body and i want a hole lot more
 fadings were never for you
 and love was dying with the truth

the empire must fall apart
 and open up the door
 for a new world and a better place
 where love will be no hard

the empire must fall apart
 and open up the door
 for a new world and a better place
 where love will be no hard....

VIOLENCE

after countless troubles and tribulations
 after two years in pain
 after countless troubles and tribulations
 after some time in your violence

i'm to old
 i'm not your man
 i lose control
 inside of you

and if i stay a while would you lay down here beside
 and if i stay a while would you love me though the night

after countless troubles and tribulations
 after two years in pain
 after countless troubles and tribulations
 after some time in your violence

i'm to old
 i'm not your man
 i lose control
 inside of you

and if i stay a while would you lay down here beside
 and if i stay a while would you love me though the night
 and if i stay a while would you lay down here beside
 and if i stay a while would you love me though the night....

FADINE

fadime you were always on the run
 from a family of honour you ran
 your father he will chose a man for you
 but you are a secondhand woman this will not do

fadime you put the shame on us
 and the honour of our family is lost
 you can't be someone else's wife
 i hate to say this but you must die

fadime bury her young
 fadime hide her from the sun
 you are no daughter of mine
 i damn you to hell for my pride

fadime only twentyysk years old
 with a great life and sweet as a rose
 your father and your brother your family of honour
 will betray you and take your dream away

fadime your blood burns red
 while the bullets come shooting through your head
 the foods they go on and they pray and they sin
 they sell their souls and love everything

fadime bury her young
 fadime hide her from the sun
 you are no daughter of mine
 i damn you to hell for my pride

fadime bury her young
 fadime hide her from the sun
 you are no daughter of mine
 i damn you to hell for my pride

BLACK HARD HANDS

black hard hands
 on a little white girl
 beating up her
 beating up her
 turning down the light

slowly and hard
 what's he doing to me
 what's he doing to me
 what's he doing to me

black hard hands
 on a little white girl
 beating up her
 beating up her
 rape her world
 and all that
 once was her

RARE FLOWERS

breaking through the wall
 woman you make me hole
 burn in my heart
 burn in my soul

some others they made me hard
 so them fall apart
 burn in my heart
 burn in my soul

you're everything
 all i need
 burn in my heart
 burn in my soul

no more empty words
 no more needle that hurts
 burn in my heart
 burn in my soul

flowers on the ground
 rare and hard to be found
 burn in my heart
 burn in my soul

you're everything
 all i need
 burn in my heart
 burn in my soul

you're everything
 all i need
 burn in my heart
 burn in my soul

you're everything
 all i need
 burn in my heart
 burn in my soul

breaking through the wall
 woman you make me hole
 burn in my heart
 burn in my soul

you're everything
 all i need
 burn in my heart
 burn in my soul....

WHY DO YOU LOVE ME

i'm a deadly poison made of dust
 i'm the antichrist the howling wolf
 i'm the third world war the pain inside
 i'm the dark shadows in the night

why do you love me
 why do you
 why do you love me
 why do you

i'm the cold winter night the dying star
 i'm the lost son the rifle in your back
 i'm the needle in vain the avest to hell
 i'm all the things that you don't do well

why do you love me
 why do you
 why do you love me
 why do you

why why why
 do you love me
 why do you love me
 why do you
 why do you love me
 why do you

i'm a deadly poison made of dust
 i'm the antichrist the howling wolf
 i'm the third world war the pain inside
 i'm the dark shadows in the night

why do you love me
 why do you
 why do you love me
 why do you

i'm the cold winter night the dying star
 i'm the lost son the rifle in your back
 i'm the needle in vain the avest to hell
 i'm all the things that you don't do well

why do you love me
 why do you
 why do you love me
 why do you

 why do you love me

TAKE ME HARD

you are such a wildness
 in your black dress
 stockings under your leather coat
 high heels and me between

you are the nightmare in my heart
 blood on your boots keep us apart
 at last

take me take me
 take me hard
 love me and kill me
 kill my heart

there is no hope left
 you are so perfect
 my love is on my tv screen
 i think you know what i mean

you are the nightmare in my heart
 blood on your boots keep us apart
 at last

take me take me
 take me hard
 love me and kill me
 kill my heart...

remeron is my only friend
 i need you to pretend
 remeron is my only friend
 i need you to pretend

you are the nightmare in my heart
 blood on your boots keep us apart
 at last

take me take me
 take me hard
 love me and kill me
 kill my heart...

remeron is my only friend
 i need you to pretend
 remeron is my only friend
 i need you to pretend

take me take me
 take me hard
 love me and kill me
 kill my heart...

BREAKING IN TWO

life goes on
 in places where we belong
 behind bars with higher walls
 in the streets where no one talks
 barely sleeping barely awake
 working for the government's sake
 forgotten dreams of life
 empty cities filled with lies

breaking in two
 pieces coming soon
 breaking in two
 pieces coming soon

life goes on
 in places where we belong
 behind bars with higher walls
 in the streets where no one talks
 barely sleeping barely awake
 working for the companies sake
 fading lower with every breath
 screaming out the death

breaking in two
 pieces coming soon
 breaking in two
 pieces coming soon

breaking in two
 pieces coming soon
 breaking in two
 and nothing is left for you

DEAMING

misty days and loveless
 hard to take a simple breath
 you are gone forever
 and empty words are written
 with your blood stained hands
 stay with me in my dream
 stay with me in my dream

the lonely nights
 when the stars surround me
 they guide me to the land of dreaming
 where you and me will be and last
 where you and me were never apart

the lonely nights
 when the stars surround me
 they guide me to the land of dreaming
 where you and me will be and last
 where you and me were never apart

you are my prison cell
 an institution of a living hell
 industrial series hunting time
 every morning is a new crime
 stay with me in my dream
 stay with me in my dream

i could hide these words from you
 but you know i can't hide the truth
 and still i feel about this now
 will do me no good will do me more harm
 stay with me in my dream
 stay with me in my dream

the lonely nights
 when the stars surround me
 they guide me to the land of dreaming
 where you and me will be and last
 where you and me were never apart...
